KANSAS GEOLOGICAL SOCIETY BOARD OF DIRECTORS

Dear KGS Members:

I offer my congratulations and sincere thanks to Lee Huff as well as to the rest of the employees at the Kansas Geological Society who have made the release of this updated membership directory possible.

Our Society's membership has grown and our membership profile has changed significantly since the last release of our directory in 2006, so this current version is greatly needed and will be a real asset for us.

Many KGS members now belong to both our long-standing hard-copy library and our Robert F. Walters Digital Library. Our excellent digital library has become a major contributor to the growth of our membership as well as to the profits experienced recently by the Kansas Geological Library.

I know that this directory will be very valuable to all.

Kent Scribner

A BRIEF HISTORY OF THE KANSAS GEOLOGICAL SOCIETY

By Lawrence H. Skelton

Kansas was a major oil-producing state by 1922. Only five years earlier, the El Dorado Field had produced nine percent of the nations' crude oil. That year (1922), one of the most active oil plays in the country was the "Golden Trend" in Greenwood County where crude production had increased nearly fivefold from the previous year and oil operators, both major and independent, were pouring into the state. It follows that several of the two dozen or more geologists then living in Wichita would occasionally meet to compare notes and socialize as best they could in those Prohibition years. Those people involved, perhaps inspired by the then seven year old AAPG (American Association of Petroleum Geologists), soon decided to formalize their meetings and met at the stylish Innes Tea room on June 23, 1923, to establish the Wichita Geological Club. Roy Hazeltine, then employed by Empire Gas & Fuel, was elected president of the new club. At about that time, the Sooy well, a highly reported wildcat effort in Barton County was declared non-productive. It may have been at one of the meetings that the next president of the group, allegedly told Willis L. Hartman that there would be "no oil found west of Wichita;" a prediction quickly proved false when close to Thanksgiving later that year, the Fairport Field was discovered in Russell County.

By 1924, the Wichita Geological Club had ceased to be a "purely Wichita organization" in Marvin Lee's words and on September 5, 1924, the name was changed to the Kansas Geological Society. The "Wichita" club, before bowing out, held the first of many member picnics, at Timmermeyer's Grove on July 24, 1924. The newly named society obtained a state charter on April 15, 1925. There were 53 charter members of whom 16 lived in Wichita and 24 others lived elsewhere in Kansas. About two weeks before receiving its charter, the Society hosted the 10th Annual AAPG convention which was attended by 438 members in addition to visitors and 154 ladies. They were accommodated at the Lassen Hotel with meetings conducted across the street in the newly constructed Elks Club. (This building today is known as the Landmark Square Building and houses the present day Kansas Geological Society & Library).

In 1924, member F. G. Holl spoke to the group and recommended: a self-supporting, Society-sponsored organization for the "collection and distribution of well logs" and a formal policy to establish what later became "technical meetings." The former recommendation was quickly adopted and resulted in creation of the Kansas Well Log Bureau in 1925. An office in the Bitting Building was rented, furnished with appropriate equipment and a fairly complete inventory of drillers' logs. E. W. Scudder, Society president, convinced George H. Bruce to manage the Bureau and Mr. Bruce began his duties on August 1, 1925. By 1927, new opportunities had appeared for Mr. Bruce and he turned the Well Log Bureau over to Harvel E. White, who was hired from the gypsy Oil Company (later a division of Gulf Oil) where he had been the instrument man with a plane table field crew. Circa 1987, George Bruce emphatically told L.H. Skelton that the Well Log Bureau was a commercial business the he had begun but in the presence of other interests, had given it gratis to the fledgling Society in order to provide it with a dependable source of income.

Harvel White took on the job as business manager and remained for 42 years. His tenure began pleasantly enough. Crude prices had been sliding downward through 1927 but optimism still reigned in the oil patch. The Society conducted its first geological field conference to northeastern Missouri and adjacent Iowa, in September 1927. It was the first such long distance trip ever taken by any professional geologists' society. To date, it has been succeeded by nearly 50 more field conferences, some ranging as far as Minnesota and some with more than 100 cars in a caravan.

Business was still good. Discovery of the nearby Valley Center Field in 1928 boosted the Log Bureau's business. However, in October 1929, the "Great Depression" began and the oil business suffered along with the rest of the economy. Society business and activities continued though. The First KGS Golf Tournament was held in July 1930, and a dinner-dance followed that fall. After considering economics, the membership voted to continue organized field conferences as best they could. In 1932, the "Kellett Cross-section" of Kansas was published in connection with a field conference in eastern Kansas and Nebraska and western Missouri. At that time, the cross-section extended westward only to Trego County, Kansas. In 1949, it was extended to the Kansas-Colorado boundary. The cross-section, so named for Betty Kellett of Amerada Oil, who chaired the committee, has continued to be a KGS "best seller" since its inception. Such social and technical functions continued through the 1930s. The Society managed to survive those harsh years, operating a few hundred dollars in the black each year. Finally, World War II began and put the geological community back to work either in exploration and production or in uniform. By 1942, 31 of the Society's 199 members were in military service. Long distance field conferences stopped through the war years.

AS rotary drilling became prevalent, a real need developed for collecting and archiving drill cuttings. This had been recognized earlier in the 1920s when Marvin Lee had urged the formation of a sample library. In 1938, the Society considered sponsoring a sample repository for the State Survey in Wichita but no action was taken. By 1944, however, the need had become urgent and the Society established the Kansas Well Sample Bureau to operate a sample cut. It began work in July 1944, with seven employees. The State Survey responded and opened a library on the top floor of a rented building on North Meade Street to archive cut samples from the Bureau. This began 42 years of close cooperation, facility sharing, etc., which ended only when the Sample Cut could no longer economically operate and was transferred to the Survey in 1986. At that time, representative cuttings on more than 115,000 oil and gas wells were available for industry and public study.

Following its introduction during the 1920s, wire line logging advanced technically and became increasingly popular; first electric logging, then during the 1940s, radioactivity logging was introduced. Both increased in popularity and use. By 1944, demand for a convenient source of such logs resulted in the Society initiating the Electric Log Service in April 1945. It was so named because the most frequently encountered logs at that time recorded electrical properties of strata. This part of the business rapidly grew and continues to be the most utilized operation of the Kansas Geological Society.

In 1948, the Society accomplished still another "first" among AAPG-affiliated geological societies by building its own office building. Under the leadership of Presidents Larry Hay (1948) and Don Payne (1949) and Building Committee Chairman E. Gail Carpenter, a \$34,000 building was erected at 508 E. Murdock. A formal grand opening program chaired by Lee Cornell and attended by local and national dignitaries was held at the end of May 1949. Six years later in December 1955, the building was completely paid for and a mortgage-burning ceremony was conducted.

In 1951, the Society responded to a suggestion from a member, Alvin Cheney, and established honorary memberships to be selectively awarded to outstanding members for contributions to the Society and profession. A unanimous vote for the first to be honored went to Dr. Walter Ver Wiebe, chairman of the Geology Department at Wichita University and mentor to many Kansas geologists. In the ensuing 55 years, 54 members have been added to that distinguished list.

By 1956, the State Survey's Sample Library on North Meade finally had outgrown its capacity. Since no building funds were on the horizon from the legislature, the Society undertook funding for a new sample library building. Chairman Charles Roach raised the money in that first of three such fund drives the Society conducted during the next 23 years; each drive resulting in an addition to the Survey's Sample Library which was relocated to a new facility on the west side of Wichita.

During 1958, despite arguments from Society officers and legal advisors, the Federal Internal Revenue Service determined that the Society was not a non-profit organization. From that time, the Society has been subject to and has paid the full panoply of taxes associated with any business. Business operations waned during the next several years, paralleling a national cutback in domestic oil and gas exploration and production. However, the Society's collection of well data continued to grow. In 1965, the Electric Log Library was established and quickly outgrew its allocated space in the Murdock Street building. In mid-1966, at the recommendation of Future Plans Chairman Lee Cornell, the library moved into rented space in the Petroleum building at 225 South Broadway and opened operations on a membership basis. An important change in 1968 was the discontinuance of the Well Log Bureau. Demand for driller's logs had fallen substantially as the more versatile wire line logs became popular. The Society had issued 117,291 logs from the Bureau's inception in August of 1925 to its demise at the end of December 1968.

Problems seem to come in groups and the Society's 1969 president, Donald Malone, was dealt his share of "challenges." Business Manager Harvel White, who had managed daily operations since April 1927, had earlier announced that he would retire in 1969 and he did so at the end of that year. The City of Wichita informed the Society that its building on Murdock Street would be condemned at some future time to make way for a new thoroughfare. The Electric Log Library was growing at such a rate that its rented space had to be doubled. On New Year's Day, 1969, the Society had added another business entity, the Kansas Sample Log Service, which was purchased from its owners, Society members James Davies and Clinton Engstrand. With the Service came its manager and draftsman, Walter DeLozier, who was to continue in that role while "understudying" Harvel White as his replacement.

The OPEC oil embargo in 1973 shifted the domestic oil industry into higher gear. The Society abandoned its Murdock Street facility and moved into rented space in the Insurance Building at 212 North Market where it consolidated all its activities except the Sample Cut which was co-located with the Survey at the Sample Library. This was accomplished under Walter DeLozier's guidance during the tenures of Presidents Robert Brooks (1972) and Robert Dilts (1973). The embargo increased the Society's business activities while membership grew from 619 members and associates in 1974 to 1,343 in 1986. During 1981, the Society remodeled and enlarged its Insurance Building office space, added 48 carrels and other improvements with the result that it became the most complete facility of its kind in the nation.

A crash in the price of crude oil combined with changes in tax laws dealt the oil industry a staggering blow during the mid-1980s. The Society's business suffered considerably. Walters DeLozier retired as business manager at the end of 1988. On January 11, 1989, President Larry Richardson named Joe W. Walters to replace him. The bright spot in the late 1980s was the founding of the Kansas Geological Foundation in 1989 by President Jene Darmstetter, Fred James, Richard Jordan and many other dedicated members. The Foundation, a completely separate entity from the Society, defines its mission: *"To provide charitable, scientific, literary and educational opportunities in the field of geology for the professional geologists as well as the general public."* The Foundation would become more important in Society affairs.

After assuming the Business Manager position, Joe Walters immediately began the onerous task of downsizing the physical plant and staff and cutting administrative costs to an income/expense breakeven point. Membership declined steadily from the all-time peak in 1986 to 901 at the end of 1992. During 1992, despite fiscal belt-tightening and declining membership, the Society continued striving to meet the needs of members and the geologic community at large. Recognizing the growing numbers of geologists employed in the environmental field, the Society began the work needed to establish an environmental geology database similar to its renowned oil and gas records. It was soon recognized that this effort was sufficiently similar to ongoing work by the Geological Survey to merit a second look at its necessity. That being done, it was decided to not pursue the environmental data base concept any further.

Joe Walter's Spartan efforts brought financial losses to rein during 1992 and the sharp membership decline abated, as oil prices seemed to stabilize in the early 1990s. Having accomplished a profit, Mr. Walters opted to retire on March 1, 1993. President Bradford Rine announced shortly before Mr. Walters' retirement that Mr. Tim Dugan had been selected as the Society's fourth business manager to be effective on Walters' retirement date. Mr. Dugan continued to cut costs where possible and cut costs during the next four administrations. From 1994 through 1997, the income statement improved and showed rising, albeit small, profits annually. In 1996, the Library experienced a net gain in membership, the first since 1984. The economy worsened beginning in 1998 as oil prices again declined and markets became shaky. By the end of 1999, membership had declined to 689 members. The year ended with nearly \$54,000 net loss. Mr. Dugan was directed to provide a balanced budget for the coming year (2000) and proving unable to do so, was released by the Board of Directors effective February 1, 2000. Completely unprecedented, the Society's elected officers ran the day-to-day business operations for the next one and half years, until October 2001, when Rebecca Radford was hired as Business Manager. Election of officers in 1999 resulted in Kitt Noah being chosen as Secretary for the year 2000 and Treasurer for 2001. Kitt was the first woman officer elected since Alice Quesenberry in 1948 and the second woman to hold a Kansas Geological Society office. She was followed as secretary/treasurer by Debra FitzGerald who after her successive terms as secretary/treasurer, went on to a historical first for the Society by serving in 2002 as its only female President to date.

Beginning in the latter 1980's, Society planners and officers acknowledged the developing revolution in electronic communication and data management and began to move in that direction. Computer literate members including business manager Tim Dugan, Paul Gerlach, Tim Lauer, Larry Nicholson, Larry Richardson, and Tyler Sanders saw the advantages and gains to be realized by creating electronic databases of the library's many holdings and making them available via the rapidly expanding internet. Early in 1992, a collection of databases was assembled and arranged into a computer accessible format which was named GeoNet. These databases which included such items as a listing of underground tanks, water well data, Sample library contents, etc. and later in 1994, a well production database named "Snooper" was added. GeoNet was online and was linked to other geologic databases with the GeoNet system as a hub. Although access was free, access to several of the data sets was by subscription. In the late 1990s, the Society became more interested in scanning data to file to make actual images of logs, etc. available over the internet. The driving purpose of scanning images was to provide a backup to the Library's vast store of paper data. A new copier designed to scan images to disk storage was purchased in 1996 during the administration of Joseph Moreland. That item did not perform as it was supposed to and eventually was sold. GeoNet failed to provide adequate income and with increased interest in scanning and increased amounts of data available from the State Survey's web site, GeoNet was phased out in 2001.

In May 2000, with the consent of both the Society and Foundation Boards of Directors, the Geological Foundation took an interest in the scanning program. Foundation President and past Society President, Don Beauchamp asked Richard Jordan and John Callen to chair a fund drive to raise money to accomplish that program and in May 2001, they set out to raise \$600,000.00. Many meetings were held between the two groups to formalize an agreement to define responsibilities, ownership rights and other legal aspects. Meanwhile, a search for an acceptable scanning program and a company to perform the actual work was underway. Scanning began in August 2001 and has continued since. The new project, which is available to subscribers, was named the Robert F. Walters Digital Geological Library in honor of the late Dr. Robert F. Walters, a long-time Wichita petroleum geologist and 1955 Society President. The system was made available to the public in the fall of 2003. As of November 2004, approximately \$1,000,000.00 had been raised to process and scan the Society's holdings into a subscriber-accessible database. By 2006, all western range data: electric logs, scout cards, plotted geo-reports, Laughlin-Simmons cards, etc. have been scanned and are available to view and download via the internet. Future plans are to scan the East Range data. This is the latest tool in 79 years of innovative and uninterrupted service to the oil and gas industry.

Notes added by Rebecca Radford 7/1/2010: Updated again 7/11/2012

As of this writing, there are 233 digital library members using the Robert F. Walters Digital Library. The Society has tried several different computer systems to display the on-line library and it has evolved to a new system that we implemented in January of 2010. This latest system was developed in cooperation with the IT department at the Kansas Geological Survey in Lawrence, KS. This new system has been developed to include the ability to receive electronic data through a new system the state is using at the Kansas Corporation Commission called "KOLAR" (Kansas On-line Automated Reporting). This system will become the norm as we move forward and most data will be sent from the logging companies to the State via this system and will include the Society in the loop to receive all new data as it is released to the public domain. The Kansas Geological Society has been on the leading edge of creating an internet based, digital library where those in the industry can access millions of well records that are visually displayed on their workstations or laptops. We have made it possible to access the data needed, from anywhere in the world. The Kansas Geological Society is actively working to help other similar geologic libraries achieve this same goal.

(Larry Skelton History continued)

Beginning in 2004, prices for crude oil and natural gas began climbing to previously unrecorded levels. The new prices have been an accelerant to the industry; oil increasing from \$22.27 per barrel in April 2000 to \$61.75 per barrel six years later. Gas during the same period increased from \$2.81 per MCF to \$5.81. The Kansas rig count, which was 39 in April of 2000, now stands at 109. Petroleum geologists are employed on a scale not known here for nearly 22 years and business at the Society reflects it all.

There still remain millions of barrels of petroleum and tens of millions of cubic feet of gas to be found in Kansas. Following its tradition, the Kansas Geological Society will continue to avail itself of the latest technology and to provide its members the edge needed to effectively find those vital energy resources that support the American way of life.

CONSTITUTION OF KANSAS GEOLOGICAL SOCIETY

Revised: August 7, 1956
Revised: Added to Article III, Section 8, December 18, 1956
Amended: Article III, Sections 1, 2, 3 and 8, December 1, 1966
Amended: Article VIII, Section 1, December 1, 1966
Amended: Article III, Section 2, December 15, 1973
Amended: Article V, Section 1, December 25, 1973
Amended: Article III, Sections 2 and 3, July 8, 1977
Amended: Article II, Section 1, January 3, 1984
Amended: Article III, Sections 2 and 3, January 3, 1984
Revised: Added to Article III, Sections 9, 10 and 11, January 3, 1984
Amended: Article VIII, Section 1, January 1, 1989
Revised: Added to Article III, Sections 1 and 2, March 1, 1990
Revised: Article VIII, Section 1, March 1, 1990
Adopted: Article XI, Section 1, March 1, 1990
Amended: Article III, Sections 4 and 5, March 1, 1990
Revised: Article III, Sections 1 and 2, January 1, 1992
Revised: Article VIII, Section 1, January 1, 1992
Revised: Added to Article II, Section 1, March 1, 1993
Amended: Article V, Section 1, March 1, 1993
Amended: Article VII, Section 5, March 1, 1993
Revised: Article VIII, Section 1, August 10, 2000

Article I — NAME

Section 1. This Society shall be called the Kansas Geological Society.

Article II — OBJECT

Section 1. The object of the Society shall be the promotion of the science of geology among the men and women engaged primarily in the geology of petroleum, gas and environmental geosciences in the State of Kansas and surrounding territory.

Article III — MEMBERSHIP

Section 1. MEMBERSHIP CLASSIFICATION - The members of this Society shall be classified as Active Members, Student Members, Associates, Supporting Members, Honorary Members and Life Members.

Section 2. QUALIFICATIONS FOR MEMBERSHIP

a. ACTIVE MEMBERS — Applicant shall be actively engaged in the geological profession. Applicant shall hold at least a bachelor's degree in a geological science from an institution of acceptable academic standards.

b. STUDENT MEMBERS — Any undergraduate student majoring in geology or earth sciences at a college of acceptable academic standards.

c. ASSOCIATE MEMBERS — Any person not qualified for active membership who is a graduate from a college of acceptable standards with major studies related to, or generally associated with the science of geology.

d. SUPPORTING MEMBERS — Any person not qualified to be an active or associate member of the Society, but who is otherwise interested in the activities of the Society.

CONSTITUTION OF KANSAS GEOLOGICAL SOCIETY

e. HONORARY MEMBERS — The board of Directors may elect, by unanimous vote, as honorary members of the Kansas Geological Society, present and past members who have contributed distinguished services for this Society, or to the science of geology. Honorary Membership shall be for life and shall not require the payment of dues. Honorary Members shall enjoy all the privileges of Active Members.

f. LIFE MEMBERS — Life Membership shall have all the privileges of Active Members for the duration of their lives and shall be required to pay no further dues. (This class of membership is not to be confused with Honorary Memberships). (See Section 8).

Section 3. MEMBERSHIP APPLICATION — A membership committee shall process properly proposed applications for Active Members or Associates. They will submit these applications to the Executive Committee with their recommendation for approval or disapproval. The Executive Committee shall have the final authority to accept or reject applications for membership in the Society. The Executive Committee may waive academic degree requirements if in its judgment an applicant has adequate professional experience and has attained standing in the profession.

Section 4. MEMBERS IN GOOD STANDING — Payment of dues by Feb 28 of the year in which said dues become payable shall keep a member in good standing. Members who are not in good standing shall not hold office, vote, and receive notices or publications of the Society. Notice of loss of good standing shall be mailed to each member at his/her last known address, who has not paid his/her dues by Feb 28 of the year in which said dues become payable, and publications will be sent to him/her for one month thereafter.

Section 5. DROPPING OF MEMBERS — If a member becomes delinquent in dues past Feb 28 of the year in which said dues become payable, he/she shall be dropped from membership.

Section 6. RESIGNATION OF MEMBERS — Any member may resign from the Society at any time, by sending written notice of such resignation to the President at Society Headquarters.

Section 7. REINSTATEMENT OF OLD MEMBERS — Members who have been dropped or have resigned may be reinstated by applying for membership in the manner prescribed for new members.

Section 8. MEMBERS ELIGIBLE TO VOTE AND HOLD OFFICE — Active, Honorary and Life Members shall be eligible to vote or hold elective office in this Society. All living Past Presidents of the Kansas Geological Society in recognition of their services to the Society shall be awarded certificates making them Life Members.

Section 9. CODE OF ETHICS — The Code of Ethics, which follows, represents the thinking of most professional geologists and has been in part taken from the Code of Ethics of the American Association of Petroleum Geologists of which the Kansas Geological Society is an affiliated society.

a. Each member of the Society of whatever classification shall be guided by the highest standards of business, ethics, personal honor and professional conduct. Geology is a profession, and the privilege of professional practice requires professional morality and professional responsibility. Honesty, integrity, loyalty, fairness, impartiality, candor, fidelity to trust and inviolability of confidence are incumbent upon every member.

b. A member will not falsely or maliciously attempt to injure the reputation or business of another.

c. A member will freely give credit for work done by others to whom the credit is due and will refrain from plagiarism in oral and written communications.

CONSTITUTION OF KANSAS GEOLOGICAL SOCIETY

d. A member will endeavor to cooperate with others in the Society and profession and will encourage the ethical dissemination of geological knowledge and information.

e. A member having knowledge of unethical practices or dishonest acts by another member will avoid, as far as possible, association with that member in professional work, and will bring to the attention of the Board of Directors such practices or acts.

f. By applying for or continuing membership, of whatever classification, in the Society, every member agrees to uphold the standards set out in the Code of Ethics.

Section 10. GRIEVANCE PROCEEDINGS — A member accused of conduct or acts, which are in violation of the Code of Ethics or the best interest of the Society, shall be notified in writing, by certified mail, to appear before the Board for a hearing. After said hearing and by an affirmative vote of at least 5 members of the full Board, the member may be:

1. Cleared of any wrongful conduct or acts;
2. Censured;
3. Allowed to resign for a stated period of time;
4. Expelled from any classification of membership in the Society without any rights for reinstatement in the future. In the event the accused member fails to appear at the designated hearing with the Board, the Board will give full consideration to the evidence at hand and vote accordingly. Should an affirmative vote of at least 5 members of the full Board not be attained at this hearing, this complaint against the member shall be dropped and the member shall be considered to be in good standing in the Society.

Section 11. LIABILITY — Every person applying for membership or continuing their membership, of whatever classification, in the Society, agrees that neither the Society nor any officer, director or member of the Society shall be individually or jointly liable in any manner for their action on a membership application, or for disciplinary action taken against a member in accordance with the Constitution of the Society.

Article IV — MEETINGS

Section 1. REGULAR MEETING — This Society shall hold not less than one regular meeting per month, unless the Board of Directors specifically decides to omit such meeting for a month.

Section 2. SPECIAL MEETING — A special meeting can be called by the Board of Directors, or by petition of ten members in good standing.

Section 3. ANNUAL MEETING — An annual meeting of this Society must be held. This annual meeting shall be held in December. Announcement of newly elected officers shall be made at this meeting; and the President and Treasurer, and such committee chairpersons as requested by the President, shall make full reports of the year's activities to the membership.

Article V — OFFICERS

Section 1. NAME OF OFFICERS — The officers of this Society shall be: a President, a Vice President - President Elect, a Secretary -Treasurer Elect and a Treasurer. These four officers shall constitute the Executive committee of the Society.

Section 2. TERM OF OFFICE — The officers shall be elected annually from among the members in good standing, except the Treasurer. The Secretary - Treasurer Elect shall successively serve as Treasurer in his/her final year of office.

CONSTITUTION OF KANSAS GEOLOGICAL SOCIETY

Section 3. DUTIES OF OFFICERS — Duties of the officers shall be those normally ascribed to such officers. Specifically, the Treasurer shall be responsible for an annual audit of the Society's funds by a firm of public accountants, and shall make an annual report of the Society's finances to the membership.

Article VI — BOARD OF DIRECTORS

Section 1. MEMBERS OF THE BOARD OF DIRECTORS — The Board of Directors of this Society shall consist of its current officers, the immediate Past President, and two members to be elected from among the members of the Society at large. Only members in good standing shall be candidates for board members.

Section 2. TERM OF BOARD MEMBERS — The board members from the Society at large shall hold office for two years, one member being elected each year, their terms being for alternate two years.

Section 3. CHAIRMAN OF BOARD OF DIRECTORS — The President of the Society, shall be Chairman of the Board of Directors.

Section 4. DUTIES OF BOARD OF DIRECTORS — The Board of Directors shall constitute the governing body of the Kansas Geological Society, and all subsidiary bureaus or services owned or administered by this Society. It shall authorize various committees as needed, which committees shall be appointed by the President. The Board of Directors shall have full power to conduct all business of this Society, except where specifically denied such power by this Constitution.

Section 5. RECORDS OF BOARD MEETINGS — The Board of Directors shall keep a record of its meetings and actions, and shall report any changes in rules or policies or other actions of importance to the membership, at the next regular meeting of the Society and in the following bulletin.

Section 6. QUORUM FOR BOARD MEMBERS — A quorum for board meetings shall be four members.

Article VII — NOMINATION AND ELECTION OF OFFICERS AND BOARD MEMBERS

Section 1. NOMINATING COMMITTEE — The Board of Directors shall appoint a Nominating Committee of five members, two of whom shall be the most recently available Past Presidents. This committee shall function only throughout the year for which it was appointed.

Section 2. SELECTION OF NOMINEES — The Nominating Committee shall select two or more nominees for each of the offices of Vice President - President Elect, Secretary -Treasurer Elect, and Member-At-Large for the Board of Directors. It shall secure consent of all nominees in writing before presenting them as candidates for office. The Nominating Committee shall report its nominees to the President no later than October 1 each year. The President shall then cause this report to be mailed to all members of the Society by October 15.

Section 3. NOMINATION BY PETITION — At any time after submittal and announcement of the Nomination Committee report, any ten or more members of the Society in good standing may choose a nominee for one or more of the above offices named. They shall submit their nomination in a signed petition to the President by November 1 together with a letter of consent from each of the said nominees. These nominees shall be considered candidates for office, of equal standing with those presented by the Nominating Committee.

Section 4. ELECTION — Officers and one board member of the Society shall be elected annually, by means of a secret ballot, in the following manner: On or immediately following November 1 of each year, the Board of Directors shall prepare a printed ballot, listing the

CONSTITUTION OF KANSAS GEOLOGICAL SOCIETY

candidates for each office and the Board of Directors, and shall cause one ballot to be mailed to each eligible member as soon after November 1 as possible. Ballots returned by members who are delinquent in their dues shall not be counted. All Ballots shall be returned to Society Headquarters. Those received on or before December 1 shall be placed as received in a locked ballot box, and promptly after December 1 the Ballot Committee shall open the box and begin the count. Officers and Board Members shall take office on January 1 following their election.

Section 5. FILLING OF VACANCIES — In the event a vacancy occurs in the office of the President, the Vice President-President Elect shall assume the title and duties of that office. A vacancy in any other office, or on the Board of Directors, shall be filled by appointment by the Board of Directors for the unexpired portion of the term. Officers or Board Members appointed to fill a vacancy shall take office immediately upon appointment.

Section 6. BALLOT COMMITTEE — A Ballot Committee of five members shall be appointed by the Board of Directors prior to November 1. This committee shall be responsible for handling and counting all ballots. This committee shall report the results of the election to the President, and then disband. In case of other elections during the year, special ballot committees shall be appointed for each election.

Article VIII — DUES

Section 1. AMOUNT OF DUES — The annual dues for this Society shall be \$45.00 per year, with the exception of student member dues, which shall be \$15.00 per year. Dues shall be payable as of January 1 and delinquent if not paid by the following Feb 28. Dues shall be paid to the Treasurer, or at the Society Headquarters office.

Section 2. CHANGE IN THE AMOUNT OF DUES — The amount of dues may be changed as follows: The Board of Directors may recommend a proposed change to the Society. This recommendation shall be announced along with the list of candidates for office mailed to each member; prior to October 15. Voting on the proposed change shall be done by a special ballot sent to each eligible member with the regular ballots on November 1. A majority of the votes received by December 1 shall be sufficient to change the amount of dues. Any change in the amount of dues shall become effective on the following January 1.

Article IX — AMENDMENTS

Section 1. PROPOSAL OF AMENDMENT — Amendments to this Constitution may be proposed by the Board of Directors, or by petition of ten members in good standing.

Section 2. VOTING ON AMENDMENT — Within 30 days of the receipt of a proposed amendment to the Constitution, the President shall cause a written explanation to the proposed changes to be mailed to all members. This explanation shall be accompanied by a secret ballot. A two-thirds affirmative vote of all ballots returned within 45 days of the mailing date shall be sufficient to amend the Constitution. Balloting shall be governed by the same rules as the election of officers. Ballots shall be handled and counted by a special Ballot Committee, appointed by the President and containing no members active in proposing the amendment.

Section 3. NOTICE OF AMENDMENT — Notice of the results of balloting to amend the Constitution shall be sent by mail to all membership as soon as possible and in any event, within 45 days after the limiting date for receipt of such ballot.

Section 4. EFFECTIVE DATE OF AMENDMENT — Any amendment to this Constitution shall become effective 30 days after the date on which notice of the passage of such amendment is mailed to the members.

CONSTITUTION OF KANSAS GEOLOGICAL SOCIETY

Article X — PARLIAMENTARY PROCEDURES

Section 1. Robert's Rules of Order shall be parliamentary authority for all matters of procedures not specifically covered by this Constitution, or by special rules of procedure adopted by the Board of Directors.

Article XI — INDEMNIFICATION OF DIRECTORS, OFFICERS AND EMPLOYEES

Section 1. Each person who is or was a director, officer or employee of the Society or is or was serving at the request of the Society as a director, officer or employee of another corporation (including the heirs, executors, administrators or estate of such person) shall be indemnified by the Society as of right to the full extent permitted or authorized by the laws of the State of Kansas, as now in effect and as hereafter amended, against any liability, judgment, fine, amount paid in settlement, cost and expense (including attorneys' fees) asserted or threatened against or incurred by such person in his capacity as or arising out of such person's status as a director, officer or employee of such other corporation with which such person is then serving at the request of this Society. The indemnification provided hereunder or under any agreement, vote of members or disinterested directors or otherwise, shall not be exclusive of any other rights to which those indemnified may be entitled under any other portion of the Constitution or under any agreement, vote of members or disinterested directors or otherwise and shall not limit in anyway any right which the Society may have to make different or further indemnifications with respect to the same or different persons or classes of persons.
