The Kansas Geological Society Bulletin, which is published bimonthly in electronic format, seeks short papers dealing with any aspect of Kansas geology, including petroleum geology, studies of producing oil or gas fields, and outcrop or conceptual studies. Maximum length of papers is 6 pages as they appear in the Bulletin, including text, references, figures and/or tables, and figure/table captions. Inquiries regarding manuscripts should be sent to manager@kgslibrary.com or mailed to 1704 S. Baehr, Wichita, KS 67209. Specific guidelines for manuscript submission appear in each issue of the Bulletin, which can also be accessed on-line at the Kansas Geological Society web site at http://www.kgslibrary.com

SOCIETY Technical Meetings

All Technical Meetings will be on Zoom

August 14, 2024 Kristen Jordan, KGS - "Upgrades to the Oil & Gas Mapper"

September 27, 2024 Dr. Johnson, OGS - "Salt Plains & Brines in Western Oklahoma"

Please remember to check the website for the most up to date information on Technical Talks

http://www.kgslibrary.com/techtalks.cfm

Note: For those geologists who need 30 professional development hours (pdh) to renew their licenses, there will be a sign-in sheet at each presentation and also a certificate of attendance.

Bulletin committee members and PhD's in Paleontology are prohibited from entering.

Kansas Geological Society (KGS) Medallion for Scientific Distinction and Excellence

The Kansas Geological Society (KGS) Medallion for Scientific Distinction and Excellence may be given annually for peer-recognized, sustained significant scientific contributions to all facets of applied Kansas geology, including work either in Kansas or in surrounding states if the latter contributions pertain directly and significantly to Kansas geology. No more than one award may be given each year, an award does not have to be given every year, and members of the KGS Awards Committee that handle nominations for this award cannot nominate themselves for this award. The candidates need not be active KGS members, and they must be living at the time of selection. The primary consideration in the selection of a candidate shall be his or her sustained, published, significant contributions to any facet of Kansas geology. Contributions may be varied in form such as development of geologic concepts, advancement in discovery thinking, and recognized leadership in exploration concepts. Oral and/or written publications in peer-reviewed geological venues is a requisite criterion for any candidate for this award. The name of a candidate shall be presented by the Awards Committee to the KGS Board of Directors for their approval. Once approved, the recipient shall be presented an appropriate award in the form of a medallion or plaque recommended by the Awards Committee and approved by the Board of Directors at the annual business meeting of the society. This is a new award given by the KGS for distinction and achievement in Geological research in Kansas.

Awards Committee members are Sal Mazzullo and Mike Dealy

Editor's Page

Dear KGS members and friends,

I'm restarting my old Editor's page. I did this during my first long term as editor. I'm hoping that this space will give members updates on events at the KGS.

Beth Isern set up an impromptu gathering at the Norton Brewery in downtown Wichita on June 29. By my count 20 members and friends of the KGS/KGF were there. The plan is to have these events frequently. The normal annual KGF get together may be scheduled in later August or September. Roger Martin and Beth Isern will make that announcement when set.

Two events are scheduled for September and October. Dave Barker has set up the KGS Golf Tournament at Rolling Hills CC on September 26, 2024. There will be 4 man teams. Registration and costs will be forthcoming. A big thanks to Dave for stepping up to preserve this event. Seth Evenson is planning to stage the next Annual Larry Richardson Memorial Shooting Tournament on October 25, 2024. Details are to follow. Thanks to Seth for handling this event.

I want to also remind the membership and other interested parties of the AAPG MCS field conference from October 18-20 in Hays, Kansas. Fort Hays State University is hosting the event. Preliminary info is on pages 12-13. Look for updates for this field conference in September.

Respectfully, Wes Hansen

Tales From the Wellsite

Many years ago someone suggested well site geologists should submit stories of their adventures in the field. I'm submitting one of my experiences.

Many years ago I was on a well, I believe in Ness County. The well name, operator and contractor have all be purged from my memory banks. As Tyler Sanders once told me, occasionally "file not found" is the answer to a query.

This well was on a very muddy location. At the time I was driving a red Buick Riviera. Because of the mud, I left my vehicle on the county road and trudged into the shack with my gear. When the well was finished I thought perhaps a roughneck with a 4-wheel drive could pull me backwards to the closest intersection (<1/4 mile) where I could then head back a mile to the south to the neighboring paved road. One of the Mexican hands had a new to him 4-wheel drive pickup. The language barrier soon proved to be a major problem. After hooking up to the back of the Buick, I was pulled to the intersection but he failed to stop. Instead he pulled me backwards at about 40 mph for a mile. My car swung back and forth on the muddy road, occasionally sliding into the ditch missing pipeline markers. I hollered, honked my horn repeatedly as my life passed before my eyes. I fully expected to be slammed into the back of his pickup. Divine providence intervened as my car stopped safely. My panic and anger dissipated rapidly. My car was unhooked and I preceded home safely.

An Open Invitation to Young Geologists to Join AAPG

I would like to extend a special invitation to recent graduates and other young geological professionals to join AAPG. There are many young geologists outside the Wichita area that I have never met. They may work out of Great Bend or Hays, Kansas working with smaller oil and gas producers or working on their own as well site geologists. Kansas does have a future for the foreseeable future. The time is now to meet others from larger regional companies to forge a relationship for future employment. Young minds will be needed to replace those retiring and that other bad option.

I joined AAPG late in my career, much to my regret. I now serve voluntarily as a delegate for the Mid-Continent Section representing the Kansas Geological Society.

Respectfully yours,

Wesley D. Hansen Bulletin Editor and AAPG Delegate

A shout out to Kansas Oil and Gas Industry Service Companies

Oil prices are recovering nicely with WTI about \$80 per barrel and Kansas posted price about \$70 per barrel Now is the time to resume advertising in the KGS Bulletin Let our several hundred members know that your company is still active and ready to work.

Your half page ad would look great here.

Color or black and white

Contact Kent Scribner at 316-640-1154

KGS members please check your files

Fellow KGS members, please remember to check your files of elogs and geologist reports against the KGS paper library and the WDL before discarding them. I was contacted by John Morrison recently about a well I watched years ago that had some tops and DST info missing from his completion card. I took pics from my geo report of tops and DST results and sent them to John to update his card data. If I was to go through all of my files, I'm sure I have many logs and geo reports that are not in the files of either the KGS paper or the WDL. Before I hang things up in my career, I vow to go through all of my data and get it donated and scanned.

KCC rules allow an operator to hold information confidential for a two year period. As long as the well in question is older than the two year period, one can release the data. If one has concerns about alienating a client, of course, feel free to ask for permission.

Wes Hansen

Kansas Geological Foundation

Web Site: www.kgfoundation.org

212 North Market Wichita, Kansas 67202

A not-for-profit educational and scientific corporation

GOALS:

- promote geology and earth science
- preserve geological records
- establish memorials and endowments
- support field trips and seminars
- financial aid and grants to students

PLEASE HELP SUPPORT THE FOUNDATION

Kansas Geological Foundation Services

The Kansas Geological Foundation provides the following services as a part of the organization's commitment to educate the public regarding earth science.

Speaker's Bureau

A list of speakers available to talk about various aspects of geology may be obtained by contacting Wes Hansen at the KGS Library, 265-8676. This service is free to the public.

DVD/Videotape Library

The KGF maintains a DVD & videotape library focused primarily on the various fields of earth science. These tapes may be checked out without charge by the public. To obtain a list of tapes, please contact the KGS Library, 1704 S, Baehr Wichita, KS 67209 or call Wes Hansen at 265-8676.

The Kansas Geological Foundation was founded in March, 1989 as a not-for-profit corporation under the guidelines of section 501(c)(3) of the tax code to provide individuals and corporations the opportunity to further the science of geology. It is dedicated to providing charitable, scientific, literary and educational opportunities in the field of geology for the professional geologist as well as the general public.

KGF can receive in-kind donations through which the donor may receive a tax deduction. Of equal importance, the KGF provides the financial resources to sort, process and file this data at the KGS library. If you have a donation to make, please contact the KGF at 265-8676.

Your tax-deductible membership donation helps to defray the cost of processing donations and to support public education programs about the science of geology. Annual membership begins at \$50.00 per year. Donations of \$100.00 or more are encouraged through the following clubs:

 Century Club
 \$ 100 to \$ 499

 \$500 Club
 \$ 500 to \$ 999

 Millennium Club
 \$1000 to \$5000

 President's Club
 \$5000 and over

Kansas Geological Foundation News

Students: The KGF awards scholarships each December and May. Check with your department chairs for applications. You must submit complete applications by the deadline.

Scholarship Applications for the Fall semester will be due by May 1, 2024.

Grants to help with research on Kansas related geology are also considered for aid.

The Kansas Geological Foundation Needs You!

The KGF provides the financial resources to sort, process and file, in-kind donations of geological data at the KGS library. Due in large part to the KGF this unique and rare well of information is being made available to all. Please consider telling your company management and colleagues about the benefits of a library that continues expanding in part because of the KGF.

We very much value and need your financial support.

BULLETIN CONTENT POLICY

Effective January 1, 2018, only ads for service companies and geologists offering their services will be permitted in the KGS Bulletin. Furthermore, only content of geologic interest or official KGS functions (technical talks, annual banquet, golf tourney, picnic etc.) will be permitted in this bulletin. This policy is in keeping with maintaining a professional standard for this publication. Any interpretation of this policy rests solely with the editor of this bulletin.

AAPG Needs You!

Professional geoscientists, share your world!

The Mid Continent Section has 17 AAPG Student

Chapters, but only 3 Visiting Geoscientists...which makes it almost impossible to have a professional geoscientist visit to each school at least once a year or even once every two years. The aim of AAPG's program is to give students a flavor of a professional life in energy resources. It also hopes to encourage dialog between industry and academia. To be a Visiting Geoscientist bearing the AAPG flag, you are asked to have at least 5 years of experience and make at least one visit per year to a university. It can be a school with an AAPG Student Chapter, or a college/university without one. Your choice.

The Mid Continent schools with Student Chapters are: Missouri University, Fort Hays State University, Iowa State University, Kansas State University, Missouri State University, University of Nebraska, Northwest Missouri State University, Oklahoma State University, University of Oklahoma, University of Arkansas, University of Iowa, University of Kansas, University of Missouri, Columbia University of Tulsa and Wichita State University.

Contact Robbie Gries, co-Chair VGP committee, Denver, if you are interested in learning more. rrgries@aol.com

Exploration Highlights

By John H. Morrison, III Independent Oil & Gas Service

Map courtesy of Marc Summervill

- 1. Red Oak Energy Inc, Wichita (KS), is producing an undisclosed amount of crude at their #1-29 Stephens Trust in Gove County. The wildcat well found new oil reserves in the Marmaton (Myrick Station Limestone). Drillsite is located in the NE/4 of section 29- T11s- R31W, about four miles south and eight miles west of Grinnell, Kansas. Murfin Drilling's Rig #22 drilled the well to a total depth of 4629 ft. Completion details remain confidential at this time. The new pool has not been named. The "Penny SE" oil field (1985), spotted in section 21- T11s- R31W, nearly one mile from Red Oak's latest discovery, also produces oil from the Myrick Station. (Ref: API 15-063-22443)
- 2. Thoroughbred Associates LLC, Wichita (KS), has opened a new unnamed oil field in Ford County. The #1-24 Heeke, located in the NE/4 of section 24- T26s- R22W, began pumping crude in early June. Productive reservoir was discovered in the Pawnee limestone member of the Marmaton formation. Completion details are confidential. Wellsite lies about five miles south and 4 miles east of the City of Spearville. Duke Drilling tools were used to bottom the well at a total depth of 4950 ft. Closest recognized production in the area lies two and one-half miles away in the "Peinther" pool which was established in 1977 with Mississippian oil pay) (Ref: API 15-057-21102)

- 3. American Warrior Inc, Garden City (KS), has discovered oil deposits in the Myrick Station Limestone at the #1-28 Mann, located in the SW/4 of section 28- T6s- R31W, in Thomas County. The wildcat well was drilled to a total depth of 4,635 ft. First production started on June 12th at site located two miles north and two miles west of Rexford, Kansas. Completion information is confidential. The new pool has not been named. The Mann lease lies two miles south of the recently established "Patricia" pool, SW/4 section 6- T6s- R31W, which American Warrior also discovered in March this year. The Patricia pool also produces oil from the Myrick Station. (Ref: API 15-193-21127)
- 4. ARP Operating LLC, Denver (CO), is producing oil from the Lansing Kansas City formation at the #1 Sharp in Gove County. The new "Gaeland Township East" pool discovery well was drilled to a total depth of 4,664 ft at site in the SE/4 of section 3- T14s- R31W. Closest recognized production in the area lies nearly one mile to the east in the "Gaeland Township" pool that has produced over 80,000 bbl of oil from the LKC, Marmaton, Cherokee, Morrow, and Mississippian zones since its discovery in 2009. Details on the #1 Sharp well is confidential. Field area is about fifteen miles southwest of Gove, Kansas. (Ref: API 15-063-22439)
- 5. Downing Nelson Oil Company, Inc, Hays (KS), has discovered new Cherokee Limestone oil reserves at the #1-27 HFI, NW/4 of section 27- T4s- R36W in Rawlins County. The well establishes the "House Farms" field that is located approximately seven miles southeast of the town of McDonald, Kansas. Completion details remain confidential. The well was drilled to a total depth of 4989 ft. The well lies approximately two miles from nearest production in the "House" field, which Downing Nelson discovered in 2023 with Marmaton and Cherokee pay. (Ref: API 15-153-21324)
