CALL FOR PAPERS

The Kansas Geological Society Bulletin, which is published bimonthly both in hard-copy and electronic format, seeks short papers dealing with any aspect of Kansas geology, including petroleum geology, studies of producing oil or gas fields, and outcrop or conceptual studies. Maximum printed length of papers is 5 pages as they appear in the Bulletin, including text, references, figures and/or tables, and figure/table captions. Inquiries regarding manuscripts should be sent to manager@kgslibrary.com or mailed to 212 N. Market, Ste. 100, Wichita, KS 67202. Specific guidelines for manuscript submission appear in each issue of the Bulletin, which can also be accessed on-line at the Kansas Geological Society web site at <http://www.kgslibrary.com>

SOCIETY Technical Meetings

KGS 2018 Technical Talks

- September 12 Robert Davis-Schlumberger Retired - "Identification and Characterizations of Faults & Folds Using Borehole Electrical Images"
- 21 "Rock Stars - Pioneering Women in Petroleum Geology"
Wichita State University Geology Department Room 101
- 26 Frank Mize - "The Arbuckle Story - Sooner Waters Return"
- October 5 Dr Karin Goldberg - KSU - TBA
- 12-14 AAPG Mid-Continent Field Conference - University of Nebraska Lincoln
- 17 Jacob McCallie Diamond Testing "Digital Testing"

Other activities

KGS Fishing Tournament September 14, 2018 Marion County Lake

KGS Shooting Tourney - October 12 - Lynbrooke Sporting Clays

Please remember to check the website for the most up to date information on Technical Talks
<http://www.kgslibrary.com/techtalks.cfm>

*Tech Talks are held at Landmark Square
212 N. Market—4th floor
In the Wisdom Center*

Note: For those geologists who need 30 points to renew their licenses, there will be a sign-in sheet at each presentation and also a certificate of attendance.

Kansas Geological Society (KGS) Medallion for Scientific Distinction and Excellence

The Kansas Geological Society (KGS) Medallion for Scientific Distinction and Excellence may be given annually for peer-recognized, sustained significant scientific contributions to all facets of applied Kansas geology, including work either in Kansas or in surrounding states if the latter contributions pertain directly and significantly to Kansas geology. No more than one award may be given each year, an award does not have to be given every year, and members of the KGS Awards Committee that handle nominations for this award cannot nominate themselves for this award. The candidates need not be active KGS members, and they must be living at the time of selection. The primary consideration in the selection of a candidate shall be his or her sustained, published, significant contributions to any facet of Kansas geology. Contributions may be varied in form such as development of geologic concepts, advancement in discovery thinking, and recognized leadership in exploration concepts. Oral and/or written publications in peer-reviewed geological venues is a requisite criterion for any candidate for this award. The name of a candidate shall be presented by the Awards Committee to the KGS Board of Directors for their approval. Once approved, the recipient shall be presented an appropriate award in the form of a medallion or plaque recommended by the Awards Committee and approved by the Board of Directors at the annual business meeting of the society. This is a new award given by the KGS for distinction and achievement in Geological research in Kansas.

Awards Committee members are Sal Mazzullo, Mike Dealy and Alfred James.

President's Letter

Society and Library Members,

This letter finds us almost in the fourth quarter of 2018. Seems impossible! Summer has flown by, and here we are with fall just around the corner. Oil is hovering just below the \$70/barrel mark, which is significantly better than one year ago at this time. Not only do the charts show the increase, but if you are scheduling wells to be drilled, one better get the rigs, loggers and drill stem testers lined up well in advance.

Doug Davis has agreed to be the Continuing Education and Technical Program Chairman. He has an excellent schedule of technical talks already lined up, so please check the KGS Bulletin and we will continue to email reminders. He is also involved in the upcoming Mid-Continent AAPG Field Conference being held in Lincoln, Nebraska, October 12-14th.

Both the KGS Golf Tournament and the 1st Annual KGS Brewery Meet were successful with members and guests attending each. I believe all had a great time at both events. I would like to thank Dave Barker again for chairing the Golf Tournament. This takes so much time in organizing and running the tournament, and he did a great job. I would also like to thank Brent Reinhardt in helping organize the Brewery Meet. Brent and I had fun planning this new event. We had around 75 people attend so we believe it was a success. We heard the food was good, the beer better, and the company superb. We will definitely have a 2nd Brewery Meet next summer. I would also like to thank all of the sponsors for the generous donations of both events. Your sponsorship helps our society do the fun stuff! And lastly, I would like to thank the employees of the KGS library. There is so much 'behind the scene work' that goes into the planning and carrying out of the social events that most of us do not see. The KGS library staff gets it done and we do all appreciate it, so thank you very much from the membership. Please plan on attending the 34th Annual Fishing Tournament on September 14th, and the 25th Annual Shooting Tournament on October 12th. Once again, your participation is greatly appreciated.

Even with the price of oil in an upswing over the past year, the KGS Library as a whole is losing money. Membership income has decreased in both the paper library and the digital library. We have an aging membership and the younger and new members have not replaced the memberships we have lost over the past several years. The sales of logs and data cannot sustain the paper library financially without memberships. This is a problem that is very difficult to solve, not only for the current Board, but will be for future KGS Boards – **and members** - for the next years to come. We have organized a Future Plans Committee to help with our aging membership, help deal with the vast amounts of paper data being stored in the library, help understand the always new and changing technology within our industry and help lead our members into the future. The next few years will encounter changes within the KGS on many levels, no doubt. I have been approached by several members with various ideas how to approach the problems we are faced with, and all are very welcome. I urge all members to please use the library for all of your geological needs and please keep up your memberships if possible.

To close, I have to say how sorry I was to learn of Ernie Morrison's passing. He will be greatly missed and leave a huge void in our Society. Thank you for everything you did, Ernie.

Thank you, KGS Society, for all of your support.

Beth A. Isern
2018 KGS President

Kansas State University
DEPARTMENT OF GEOLOGY

Graduate education for active professionals in this innovative program, workshops, site visits and distance courses help professionals advance in their careers. Whether your goal is to receive academic credit, certifications or a master's degree in geology, you'll find a path that leads to your career goals.

CHOOSE FROM SPECIALIZATIONS IN:

- ▶ Petroleum geology
- ▶ Environmental geochemistry

Missing reference books and periodicals from the KGS Resource Room

I'm channeling the spirit of my dear departed friend Bob Slamal. Bob was determined to organize all of the text books, survey bulletins and various publications that are in the resource room at the KGS Library. He spent countless hours on his own time to accomplish this task. Many years back, before his untimely death, he instituted a checkout policy for these materials. Cards were filled out with the borrowers name and publication, then placed in an envelope on the shelf where the publication was removed.

Recently I noticed many of these envelopes on the shelves and began to peruse them. Many items have been gone for years. I'm asking that each member check your reference materials for these missing items. I'm sure they will be marked as KGS property.

Please help me in this endeavor. This is my FOURTH appeal to the membership. Thus far there has been no response.

Schedule of Events

Friday, October 12

- 10:00am-1:00pm Exhibitor and poster setup
- 12:00pm-6:00pm Registration
- 1:00pm-7:00pm Exhibit hall open
- 1:00pm-5:00pm Symposium - Technical and poster sessions
- 5:00pm-7:00pm Welcome Reception

Saturday, October 13

- 6:00am-7:00am Breakfast
- 7:00am-5:00pm Field Trip (lunch provided)

The field trip, led by Drs. Christopher Fielding and R.M. "Matt" Joeckel, will see participants traveling through southeastern Nebraska to examine a series of Pennsylvanian exposures, comprising thick fluvial and estuarine sandstones overlain by thin-bedded sandstones-mudrocks that are incised into the limestone-mudrock cycles typical of the latest Pennsylvanian (Virgilian) succession of SE Nebraska. Participants will gain an appreciation for the diagnosis of sedimentary environments in these strata, their stacking patterns, and their capacity to act as reservoirs of natural fluids. The Indian Cave Sandstone is a producing oil reservoir horizon in southern Kansas.

- 6:00pm-10:00pm Dinner (Keynote) and Cocktail Reception

Sunday, October 14

- 7:00am-8:00am Breakfast
- 7:00am-12:00pm Exhibit hall open
- 8:00am-12:00pm Core workshop and poster session
- 12:00pm Conference ends

**Proposals for oral or poster presentations,
drillcore displays and commercial exhibitors are welcome!**

Guests are Welcome!

**Guest registration will include the welcome reception on Friday evening
and Saturday night dinner featuring a guest speaker.**

REGISTER TODAY!

BULLETIN CONTENT POLICY

Effective January 1, 2018, only ads for service companies and geologists offering their services will be permitted in the KGS Bulletin. Furthermore, only content of geologic interest or official KGS functions (technical talks, annual banquet, golf tourney, picnic etc.) will be permitted in this bulletin. This policy is in keeping with maintaining a professional standard for this publication. Any interpretation of this policy rests solely with the editor of this bulletin.

NOTICE!!!!

WSU GEOLOGY CLUB & Papa John's Pizza

Papa John's offered WSU student organizations an opportunity to raise monies for their organizations.

The **WSU Geology Club** is participating
And **YOU** can help them!

When ordering pizza from Papa John's,
Use this code: **WSU004**
(those are zero's, not letter O)

With this code, the customer will receive 40% off their entire online order and WSU's AAPG Student Chapter will receive 10% of the money spent on the order.

**Eating pizza tonight?
Let's help WSU Geology Club!**

Monies raised will be used towards gas money to travel to local schools when they promote the geosciences to grade schools, registration costs for workshops, seminars and AAPG Student Expos, and social and academic events like an upcoming "Lunch and Learn" series next fall.

The Following Are For Sale

PLEASE HELP SUPPORT THE FOUNDATION

Kansas Geological Foundation Services

The Kansas Geological Foundation provides the following services as a part of the organization's commitment to educate the public regarding earth science.

Speaker's Bureau

A list of speakers available to talk about various aspects of geology may be obtained by contacting Janice Bright at the KGS Library, 265-8676. This service is free to the public.

DVD/Videotape Library

The KGF maintains a DVD & videotape library focused primarily on the various fields of earth science. These tapes may be checked out without charge by the public. To obtain a list of tapes, please contact the KGS Library, 212 N. Market, Ste. 100, Wichita, KS 67202, or call Janice Bright at 265-8676.

The Kansas Geological Foundation was founded in March, 1989 as a not-for-profit corporation under the guidelines of section 501(c)(3) of the tax code to provide individuals and corporations the opportunity to further the science of geology. It is dedicated to providing charitable, scientific, literary and educational opportunities in the field of geology for the professional geologist as well as the general public.

KGF can receive in-kind donations through which the donor may receive a tax deduction. Of equal importance, the KGF provides the financial resources to sort, process and file this data at the KGS library. If you have a donation to make, please contact the KGF at 265-8676.

Your tax-deductible membership donation helps to defray the cost of processing donations and to support public education programs about the science of geology. Annual membership begins at \$50.00 per year. Donations of \$100.00 or more are encouraged through the following clubs:

Century Club	\$ 100 to \$ 499
\$500 Club	\$ 500 to \$ 999
Millennium Club	\$1000 to \$5000
President's Club	\$5000 and over

The Kansas Geological Foundation Needs You!

The KGF provides the financial resources to sort, process and file, in-kind donations of geological data at the KGS library. Due in large part to the KGF this unique and rare well of information is being made available to all. Please consider telling your company management and colleagues about the benefits of a library that continues expanding in part because of the KGF.

We very much value and need your financial support.

Kansas Geological Foundation News

Students: The KGF awards scholarships each December and May. Check with your department chairs for applications. You must submit complete applications by the deadline.

Scholarship Applications for the Spring semester will be due by December 1, 2018.

Grants to help with research on Kansas related geology are also considered for aid.

If you are in the KGS Library and see Ted Jochems or any of the integrators, give any of them a great big thanks for their efforts in continuing the tedious process of examining, scanning and integrating new logs and geologist's reports etc. into our library and the WDL.

Currently, the Foundation has four students working on well log integration: Kyle Lawson, Helen Cruz, Shuyao Li (a.k.a. Emily) and David Bruce. They work between ten and thirty hours per week. More than a dozen other part-time integrators have worked on the project since 2010.

Is it Time for the KGS Bulletin to go Only Digital?

The readers of the KGS Bulletin have no doubt noticed the gradual decrease in advertising in our society bulletin. We have lost two 1/2 page color ads in the last couple of months. The costs for printing and mailing the bulletin far exceed the ad revenue. Currently, one can view the bulletin online from the Kansas Geological Society website and print from one's own computer.

One concern expressed to me is that some members may not be able to receive a pdf of the bulletin in their email program due to the file size. It has also been suggested to me that a link to the current issue could be emailed to the membership that would take them to the current issue.

Express your concerns to me at whansen4651@sbcglobal.net

**Thanks,
Wesley D. Hansen, editor**

Memorial

Gary Stuart Sandlin
By Kathie Sandlin

Gary Stuart Sandlin was born June 10, 1933, and passed away on January 5, 2017, at St. Anthony's North Hospital, Westminster, Colorado. He is survived by his wife Kathie Sandlin, daughter, Laura Rodriguez Sandlin and her husband, Paul Rodriguez, stepson, Billy Kimbrough, sister, Karen Summers, brother, Steve Sandlin, and his wife Cathy, many nieces and nephews, previous wife, Betty Keiswetter Higbie, and her husband, Lee. He was preceded in death by his parents, Edwin and Mary (Dorman) Sandlin, son Jeff Sandlin, brother, Arlen Sandlin, and brother, Curtis Sandlin.

Gary worked as a geologist in the oil industry for more than 50 years. Raised on a farm in Graham County, Kansas, he began working in the oil fields of western Kansas after graduation from high school in 1951 and continued working on drilling rigs during summers through 1955, when he earned his bachelor's degree in geology from K-State

Upon graduating from K-State, he worked for Dowell, Inc. as a junior service engineer until 1956, when he returned to K-State as a graduate student. After earning his master's degree in geology in 1957, Sandlin worked as a geologist with Pubco Petroleum in Casper, Wyoming. He then transferred to Albuquerque, N.M. in 1959 to work as a district geologist in the mid-continent and Denver Basin regions.

In 1961 he was transferred to Denver, Colorado, where he worked in the same capacity until 1965, when he began his career as an independent geologist. In 1977, Sandlin incorporated Sandlin Oil Corporation, which his wife and daughter still own and operate.

Gary was a member of the Kansas Geological Society, American Association of Petroleum Geologists, Rocky Mountain Association of Petroleum Geologists, and a member of the Kansas State Geology Advisory Board at Kansas State University. Gary was very supportive of the geology department at K-State and created the Gary and Kathie Sandlin Geology Scholarship to help those interested in geology. He also contributed to the proposed K-State Geosciences Building. The Alumni Fellows Program sponsored by the President's office, the Dean's Council and the K-State Alumni Association honored Gary as a Fellow in April, 2014. Gary enjoyed traveling to the K-State football bowl games following his "Wildcats" and enjoyed talking geology and football with his many friends and their wives.

A memorial has been established with the Kansas Geological Foundation.

Memorial

MEMORIES OF GARY WILKINS

From

Gary Penley, Petroleum Geologist

Gary C. Wilkins, geologist, mentor, and forever friend, passed from this life on January 24, 2017. In a successful career of fifty-plus years, Gary held various positions—both technical and managerial—in Magnolia Petroleum, Mobil, Lear Petroleum, Mesa Petroleum, Calvin Exploration, and Hawkeye Exploration.

Gary's work took him to residences in Mt. Vernon, Illinois; Wichita, Kansas; Oklahoma City, Oklahoma; and Denver, Colorado. His exploration experience extended through an impressive number of geologic basins: the Anadarko Basin, Arkoma Basin, Texas Panhandle, Illinois Basin, Michigan Basin, Great Valley of California, Santa Barbara Channel, Southern California offshore, the North Slope of Alaska, and all of Kansas.

In a manner reminiscent of his entire life, Gary planned his own funeral—chose the flowers, the music, picked out his casket, and wrote his own obituary.

Surprisingly, Gary admitted an inability to write this “Blurb”—his word, not mine—to be published after his death. He honored me by asking me to write it. I do hope this blurb proves satisfactory, lest my outspoken friend give me a final chewing out from his current residence—a place largely unknown to us except for the undeniable fact that Gary is surely influential up there—at least second in command.

Personality wise, Gary Wilkins was a walking contradiction—a living dichotomy.

The man was velvet and steel. The steel being the side he generally chose to present to the world; the velvet being the one revealed only to those of us who knew him well.

The persona that Gary presented—tough, fearless—was not an empty facade. Unlike many who act like tough guys, Gary really was a tough guy.

Gary had a unique professional philosophy—one that he expressed often. “If you keep your eyes and ears open and pay attention for a few years, you will no longer be a geologist, a geophysicist, or an engineer; you'll be an oil man.”

Godspeed, Oil Man. We miss you.

AAPG Needs You!
Professional geoscientists, share your world!

The Mid Continent Section has **17 AAPG Student Chapters**, but only **3 Visiting Geoscientists**...which makes it almost impossible to have a professional geoscientist visit to each school at least once a year or even once every two years. The aim of AAPG's program is to give students a flavor of a professional life in energy resources. It also hopes to encourage dialog between industry and academia.

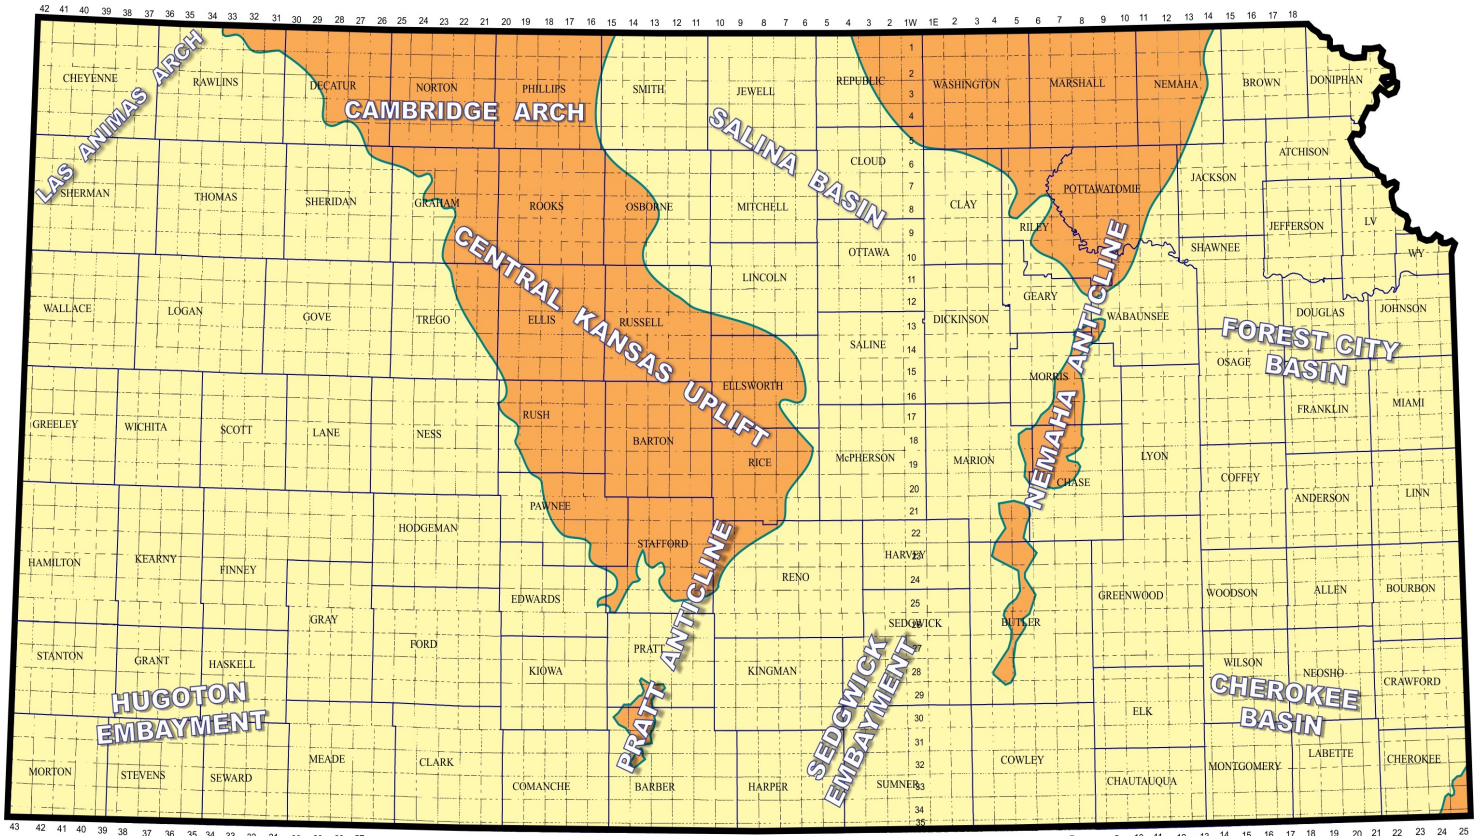

To be a Visiting Geoscientist bearing the AAPG flag, you are asked to have at least 5 years of experience and make at least one visit per year to a university. It can be a school with an AAPG Student Chapter, or a college/university without one. Your choice.

The Mid Continent schools with Student Chapters are: Missouri University, Fort Hays State University, Iowa State University, Kansas State University, Missouri State University, University of Nebraska, Northwest Missouri State University, Oklahoma State University, University of Oklahoma, University of Arkansas, University of Iowa, University of Kansas, University of Missouri, Columbia University of Tulsa and Wichita State University.

Contact Robbie Gries, co-Chair VGP committee, Denver, if you are interested in learning more. rrgries@aol.com

Exploration Highlights

Editors Note:

Dear readers,

John Morrison informed me that he was undergoing a back surgery that would entail no activity for several weeks with an additional recovery of several weeks to a few months. There will be no *Exploration Highlights* for the foreseeable future. His many friends may wish to convey their thoughts for a rapid and successful recovery

Robert F. Walters Digital Library
